

Welcome! Meiluk Food Services provides expert knowledge and a rare understanding of the retail industry built through years of in-store and food wholesale experience to a range of companies. We help you tailor and market your products to the retail trade. How do we know about your needs? Through many years of personal experience and a real understanding of cost, Meiluk Food Services has thrived since 2002 - a company that works **with** suppliers rather than for them.

"We get products on the shelf - and into shopping trolleys!"

Lawrence McCabe - Director

With over 30 years experience in the food industry, we specialise in assisting major and independent retail and chilled, frozen and dry transportation.

Australia and New Zealand have some of the most stringent regulations in the World around importation of food products. Meiluk Food Services uses established networks with key industry leaders in both leading chains and independent retailers to get your products on the shelf and offers a complete understanding of Food Safety and many years of practical experience in HACCP.
